

MINUTES
FAYSTON PLANNING COMMISSION
FEBRUARY 6, 2017
Unapproved

Members Present: Carol Chamberlin, Don Simonini, Shane Mullen

ZA: John Weir

Members first reviewed the minutes of January 23, 2017. Shane moved to approve the minutes, and Don seconded. All were in favor and the motion passed.

Carol brought in a few examples of pamphlets for the landowner education project. Members agreed that a four-fold pamphlet should be used for mailing. As to drafting the topics to be addressed within the pamphlets, more members are needed across the two boards.

Members proceeded to briefly discuss the stream buffer revisions in the pending draft of the land use regulations. Don was not a member then and was curious as to the history in deciding to increase the buffers from fifty (50) to one-hundred (100) feet. Members reviewed Waitsfield's and Warren's stream buffer language for comparison. This discussion will be tabled until the February 20, 2017 meeting when members of the Development Review Board and Selectboard intend to participate.

Members then discussed the Central Vermont Regional Planning Commission's Energy Survey.

The meeting adjourned at 6:45 p.m.
